APPROVAL OF PROGRAM DIRECTOR

Signature: _____ Date: _____

GLOBAL HEALTH OFFICE/GO ABROAD TEAM REGISTRATION

- Residents undertaking electives in **under-resourced** Canadian and/or international communities, or participating in **humanitarian projects**, are required to register with the Faculty of Medicine's Global Health Office (GHO).
- GHO will provide mandatory pre-departure training and post-elective debriefing, ethics discussions, logistical and health preparation, and University procedures for risk management.
- Electives without the requisite registration will not receive program or PGME approval.
- Beverly Edwards, the Global Health & Health Equity Coordinator, is available by email at globalhealth@mun.ca , or by phone at 709 864 4938.
- Residents on **international electives** are required to participate in a pre-departure session with the Memorial [Go Abroad](#) team in advance, and complete the [MOBI 1000](#) module after the session. Please email goabroad@mun.ca for more information.

LIABILITY INSURANCE

- CMPA coverage is applicable only in Canada. For electives in other countries, residents are responsible for communicating with the institution where the elective is based to determine how to obtain recognized and sufficient coverage. It is strongly recommended such communication be in writing and maintained by the resident in their personal records, should there be a dispute regarding inappropriate or insufficient coverage. Disputes, and any financial costs associated with them, are the responsibility of the resident to resolve.
- For electives in other Canadian provinces, the CMPA requires direct notification from the resident stating the dates and the province of the elective rotation.

LICENSURE/REGISTRATION

- The CPSNL education registration is valid only in Newfoundland. Residents are responsible for ensuring they have appropriate provincial or international licensure/registration for electives outside this province.

PLEASE NOTE, THERE IS NO REIMBURSEMENT FOR EXPENSES INCURRED DURING ELECTIVE AND SELECTIVE ROTATIONS.
